

In 2004, for the third consecutive year, despite high oil prices, the Reserve Bank of Peru has fulfilled its goal, within the framework of explicit targets for inflation adopted in 2002. Thus, during 2004 prices increased by 3.48% and inflation is ... This makes Peru is one of the most reliable economies of Latin America, behind only Chile and Mexico, and a strong candidate to get the level of investment in the coming years. • Low labor costs and skilled workforce. ...Leasing Mexico - <http://www.leasingmexico.com/>
